All families in California, including immigrant and undocumented families, have options to enroll in coverage. **Medi-Cal** is a no cost or low-cost health program for low-income adults, seniors, pregnant women, and foster youth. Based on income, the following immigrant populations may also qualify for Medi-Cal:

- ▶ **Newly Qualified Immigrants** (legal permanent residents for less than 5 years, people granted parole for at least one year, and qualified battered immigrants)
- ▶ **Permanent Resident Under Color of Law (PRUCOL)**
- ▶ **Deferred Action for Childhood Arrivals (DACA)** recipients.

Medi-Cal covers ALL children, age 0-19, regardless of a child's immigration status. You can enroll in Medi-Cal year-round.

Apply to find out if you are eligible for Medi-Cal or Covered California by calling this number:

 **Medi-Cal or Covered California:**

Covered California is the state health insurance marketplace, part of ACA or Obamacare, where legal residents of California who do not qualify for Medi-Cal can compare health plans and choose one that they prefer. Based on income and family size, many may qualify for financial support. Enroll during Open Enrollment or after a life-changing event, like losing your job or having a baby. You have 60 days from the event to enroll.
