The Whole Child Equity Partnership

Whole Child? A whole child approach envisions a society rooted in racial and economic justice where all children are embraced, valued and cared for; where every Black, Native American, Asian American, Pacific Islander and Latinx child and their family has access to systems and services that promote their health, well-being, and the life opportunities that enable them to thrive.

Our Coalition: The WCEP is a multi-racial, multi-sector coalition of community and statewide organizations, advocates, community organizers, direct service providers and issue area experts working across multiple disciplines to advocate for holistic policies and programs that center the assets and needs of California's Black, Native American, Asian American, Pacific Islander and Latinx young children and their families facing the greatest systemic challenges.
